Active Selling Movement As  
Call Money Rate Increases  
After Advance

NEW YORK, April 15.—Contrary to expectations in many quarters, the advance of the Bank of England discount rate exerted no perceptible adverse influence over the stock market at the opening of today's session. Dealings were active and broad, oil, secondary steels, equipment, motors and sugars resuming their leadership at gains of 1 to 3 points. The few exceptions to the further rise included several of the investment rails. General Motors and preferred stock of the Standard Oil company of New Jersey, which reacted probably on announcement of the capital issue.

The rise was temporarily checked before the end of the first hour. Selling accompanied Pittsburgh advances that the railroad strike was causing further suspension of shipments or orders. Rail issues reacted 1 to 3 points. Rallies soon followed when minor steels equipment motor specialties textiles and chemicals again moved forward. Leaders included Vanadium, Baldwin, Stromberg, American Woolen, Consolidated Textile and Industrial Alcohol at gains of 2 to 7 points.

Call money opened at 8 per cent, the highest initial rate of the week, and Liberty bonds continued to decline. Call money rose to 10 per cent at midday and an active selling movement began especially among oils, shipments, tobacco and the popular food shares. Reversals ranged from 2 to 7 points, leaving little or nothing of the morning's advance. Standard industrials and rails also became heavy.

### CHICAGO GRAIN

CHICAGO, April 15.—Corn continued to show an upward tendency in price today, with lack of selling pressure an outstanding feature. The absence of aggressiveness on the part of bears was ascribed mainly to strength in wheat values and to the demoralized railway traffic situation. Opening prices which ranged from 1 1/2 to 1 3/4, were followed by material gains all around.

Delays to seeding gave independent firmness to oats. After opening 1/4 to 1/2 higher, including July at 56 1/2 to 56 3/4, the market continued to harden. Provisions were full but firm. Grain strength was the chief bullish factor.

## STUTZ MOTOR STOCK EXCEEDS 700 MARK

NEW YORK, April 15.—Stock of the Stutz Motor Car company, taken off the New York stock exchange at the request of the company's chairman, Allan A. Ryan, after the exchange suspended trading in it, went on sale on the curb today and brought higher prices than ever. The first sales were at 700 and 710 and as high as 730 was asked. The price when the exchange stopped trading was 731 and auction prices since then had been 700 and 701.

Ryan, whose resignation from the exchange, tendered with accusations that members of the board of governors were short in Stutz when trading was stopped in it, has not been accepted, today announced himself in favor of incorporation of the exchange.
